

WAD 3A

The screenshot shows a VS Code editor with a file explorer on the left displaying a project structure for 'WAD'. The main editor area shows a JavaScript file named 'server.js' with the following code:

```
1 const express = require('express');
2 const path = require('path');
3
4 const app = express();
5 const PORT = process.env.PORT || 3000;
6
7 // Serve static files from the 'public' directory
8 app.use(express.static(path.join(__dirname, 'public')));
9
10 // Start the server
11 app.listen(PORT, () => {
12   console.log(`Server is running on http://localhost:${PORT}`);
13 });
14
```

The terminal at the bottom shows the following output:

```
"auth": "",
"license": "ISC"
)

Is this OK? (yes)
PS C:\Users\ADMIN\Documents\ITE_II\WAD\Static web Server> npm i express
added 64 packages, and audited 65 packages in 6s
12 packages are looking for funding
run npm fund for details

found 0 vulnerabilities
PS C:\Users\ADMIN\Documents\ITE_II\WAD\Static web Server> node server.js
Server is running on http://localhost:3000
```
